DATE	COURSE NUMBER	COURSE NAME	TIME	LOCATION
Wed, Jan 7	D1100	Daikin FIT Installation & Commissioning	7:30 AM - 9:45 AM	Phoenix, AZ
Wed, Jan 7	D1200	Daikin FIT Service & Troubleshooting	10:30 AM - 12:45 PM	Phoenix, AZ
Thu, Jan 8	D1300	Daikin Unitary HP & AC Installation & Commissioning	7:30 AM - 9:45 AM	Phoenix, AZ
Thu, Jan 8	D1400	Daikin Unitary Heat Pump & AC Service & Troubleshooting	10:30 AM - 12:45 PM	Phoenix, AZ
Thu, Jan 15	D1100	Daikin FIT Installation & Commissioning	7:30 AM - 9:45 AM	Tucson, AZ
Thu, Jan 15	D1200	Daikin FIT Service & Troubleshooting	10:30 AM - 12:45 PM	Tucson, AZ
Wed, Jan 21	D1700	Daikin High Efficiency Furnace Installation & Commissioning	7:30 AM - 9:45 AM	Phoenix, AZ
Wed, Jan 21	D1800	Daikin High Efficiency Furnace Service & Troubleshooting	10:30 AM - 12:45 PM	Phoenix, AZ
Thu, Jan 22	D3100	Daikin Ductless Installation & Commissioning	7:30 AM - 9:45 AM	Phoenix, AZ
Thu, Jan 22	D3200	Daikin Ductless Service & Troubleshooting	10:30 AM - 12:45 PM	Phoenix, AZ
Wed, Jan 28	G1700	Goodman High Efficiency Furnace Installation & Commissioning	7:30 AM - 9:45 AM	Tucson, AZ
Wed, Jan 28	G1800	Goodman High Efficiency Furnace Service & Troubleshooting	10:30 AM - 12:45 PM	Tucson, AZ
Thu, Jan 29	G1300	Goodman HP & AC Installation & Commissioning	7:30 AM - 9:45 AM	Tucson, AZ
Thu, Jan 29	G1400	Goodman Heat Pump & AC Service & Troubleshooting	10:30 AM - 12:45 PM	Tucson, AZ
Tue, Feb 3	G1100	Goodman Side Discharge Installation & Commissioning	7:30 AM - 9:45 AM	Phoenix, AZ
Tue, Feb 3	G1200	Goodman Side Discharge Service & Troubleshooting	10:30 AM - 12:45 PM	Phoenix, AZ
Wed, Feb 4	D3450	Daikin Light Commercial Installation & Service	7:30 AM - 12:45 AM	Phoenix, AZ
Thu, Feb 5	D3450	Daikin Light Commercial Installation & Service	7:30 AM - 12:45 PM	Tucson, AZ
Wed, Feb 11	D3100	Daikin Ductless Installation & Commissioning	7:30 AM - 9:45 AM	Tucson, AZ
Wed, Feb 11	D3200	Daikin Ductless Service & Troubleshooting	10:30 AM - 12:45 PM	Tucson, AZ
Thu, Feb 12	D1300	Daikin Unitary HP & AC Installation & Commissioning	7:30 AM - 9:45 AM	Tucson, AZ
Thu, Feb 12	D1400	Daikin Unitary Heat Pump & AC Service & Troubleshooting	10:30 AM - 12:45 PM	Tucson, AZ
Tue, Feb 17	G1700	Goodman High Efficiency Furnace Installation & Commissioning	7:30 AM - 9:45 AM	Phoenix, AZ
Tue, Feb 17	G1800	Goodman High Efficiency Furnace Service & Troubleshooting	10:30 AM - 12:45 PM	Phoenix, AZ
Wed, Feb 18	G1300	Goodman HP & AC Installation & Commissioning	7:30 AM - 9:45 AM	Phoenix, AZ
Wed, Feb 18	G1400	Goodman Heat Pump & AC Service & Troubleshooting	10:30 AM - 12:45 PM	Phoenix, AZ
Thu, Feb 19	D3100	Daikin Ductless Installation & Commissioning	7:30 AM - 9:45 AM	Phoenix, AZ
Thu, Feb 19	D3200	Daikin Ductless Service & Troubleshooting	10:30 AM - 12:45 PM	Phoenix, AZ
Tue, Mar 3	D1100	Daikin FIT Installation & Commissioning	7:30 AM - 9:45 AM	Phoenix, AZ
Tue, Mar 3	D1200	Daikin FIT Service & Troubleshooting	10:30 AM - 12:45 PM	Phoenix, AZ
Wed, Mar 4	D2100	Daikin Residential Packaged Installation & Commissioning	7:30 AM - 9:45 AM	Phoenix, AZ
Wed, Mar 4	D2200	Daikin Residential Packaged Service & Troubleshooting	10:30 AM - 12:45 PM	Phoenix, AZ
Thu, Mar 5	G1100	Goodman Side Discharge Installation & Commissioning	7:30 AM - 9:45 AM	Tucson, AZ
Thu, Mar 5	G1200	Goodman Side Discharge Service & Troubleshooting	10:30 AM - 12:45 PM	Tucson, AZ
Tue, Mar 10		EWC UT-3000 Installation & Commissioning	7:30 AM - 10:30 AM	Phoenix, AZ
Wed, Mar 11	D3100	Daikin Ductless Installation & Commissioning	7:30 AM - 9:45 AM	Tucson, AZ
Wed, Mar 11	D3200	Daikin Ductless Service & Troubleshooting	10:30 AM - 12:45 PM	Tucson, AZ

ABOUT STEVENS ACADEMY

Within Stevens Academy, our priority is to provide prompt, knowledgeable, and friendly assistance, ensuring you feel confident reaching out to us. We want all our HVAC contractor customers to have the knowledge to properly select, install, commission, and service the latest technology, and we provide training to drive competence, efficiency, and long-term success.

YOUR TECH TEAM

BOB CONÉ

MANAGER, TECHNICAL SUPPORT CENTER

Bob joined Stevens Equipment Supply (SES) in April 2021 as a Technical Training/Services Manager, focusing on the Arizona and New Mexico markets. In April 2024, he transitioned to the role of Technical Support Manager, where he leads and develops a team of six Regional Technical Training/Services Managers across the SES network. Prior to joining SES, Bob built an impressive 24-year career with Lennox Industries in a similar capacity. With over 45 years of HVACR experience, Bob's extensive expertise includes time as an HVAC contractor serving the unique demands of Death Valley, CA. He is deeply committed to the industry's future, actively engaging with vocational schools and contractor organizations to enhance their HVAC education programs.

DENNIS MCGEE

TECHNICAL SERVICE & TRAINING MANAGER

With over 30 years of experience in the HVAC industry, Dennis brings a wealth of knowledge, including three years as Daikin's Divisional Training Manager and two years in a similar role at SES. His HVAC journey began in the Navy, where he developed a strong technical foundation that he has built upon throughout his career. Dennis has gained extensive experience in both technical and sales training, and has held various roles, including service technician, field supervisor, and positions in both residential and commercial sales. His deep expertise in Daikin equipment, combined with his exceptional training skills, make Dennis an invaluable asset to our team.

ABOUT STEVENS ACADEMY

Within Stevens Academy, our priority is to provide prompt, knowledgeable, and friendly assistance, ensuring you feel confident reaching out to us. We want all our HVAC contractor customers to have the knowledge to properly select, install, commission, and service the latest technology, and we provide training to drive competence, efficiency, and long-term success.

YOUR TECH TEAM

PHIL SWEREN

TECHNICAL SERVICE & TRAINING MANAGER

Phil brings 20 years of HVAC experience to the table. He began his career in Texas, working for a small company that specialized in new construction projects, and quickly advanced to a team lead position. The company later partnered with a larger organization, which allowed Phil to work on installing heat recovery VRV systems on military bases across the United States. After moving to Idaho, Phil transitioned into residential service, where he had the opportunity to work under a skilled mentor who helped him sharpen his diagnostic and problem-solving skills. Not long after, Phil relocated to Colorado to help his brother start a residential AOR company. Together, they built the business with a focus on Daikin inverter technology and exceptional customer service. Over an eight-year period, the company earned multiple local “best-of” awards for its outstanding service. Phil joined the Stevens team in Colorado in March of 2023, where he now uses his extensive experience to mentor others. He is committed to making a positive impact on those he supports, inspired by the influence of the mentors who shaped his own career.

YOUR TECH TEAM

MIKE DEARDEN

TECHNICAL SERVICE & TRAINING MANAGER

In early 2007, Mike Dearden was in college to become a middle-school English teacher, hoping to make the middle-school experience better for the next generation, but dabbled in HVAC to help support his small family. When his father and brother established a new HVAC company, he joined them full-time and dropped out of college. Despite the hardships of the 2008 recession, the company grew steadily and Mike's trade experience grew along with it. From Apprenticeship to Installation Tech, Lead Installer to Service Tech, and eventually running the early morning technical training classes for the company, which had grown to employ over 50 people. Mike was most proud to assist the technicians who finally passed their EPA or NATE tests after multiple attempts prior to his tutelage. Though the company was growing, it was not large enough to sustain a full-time training program. When the opportunity arose to become a full-time educator with Stevens Equipment Supply, Mike jumped at the opportunity. He now loves to teach and support new technicians as they begin their journey as tradesmen, as well as experienced technicians as they learn and adapt to the modern expectations of the HVAC trade.

ABOUT STEVENS ACADEMY

Within Stevens Academy, our priority is to provide prompt, knowledgeable, and friendly assistance, ensuring you feel confident reaching out to us. We want all our HVAC contractor customers to have the knowledge to properly select, install, commission, and service the latest technology, and we provide training to drive competence, efficiency, and long-term success.

YOUR TECH TEAM

DENNIS MCGEE

TECHNICAL SERVICE & TRAINING MANAGER

With over 30 years of experience in the HVAC industry, Dennis brings a wealth of knowledge, including three years as Daikin's Divisional Training Manager and two years in a similar role at SES. His HVAC journey began in the Navy, where he developed a strong technical foundation that he has built upon throughout his career. Dennis has gained extensive experience in both technical and sales training, and has held various roles, including service technician, field supervisor, and positions in both residential and commercial sales. His deep expertise in Daikin equipment, combined with his exceptional training skills, make Dennis an invaluable asset to our team.

YOUR TECH TEAM

TONY CROWLEY

TECHNICAL SERVICE & TRAINING MANAGER

Tony has transitioned from his role as Branch Manager to join the Tech Support team. With more than 36 years of experience in the HVAC industry, his journey began at his grandfather's shop in Michigan. Although he initially pursued a business degree at Central Michigan University, Tony quickly discovered a passion for hands-on work. He progressed from install helper to lead installer and service technician, building a solid foundation of technical expertise. In 2000, Tony moved to Green Bay, where he took on a variety of roles at SES, including installer, service tech, trainer, service manager, and eventually branch manager. He finds the HVAC industry's constant evolution both challenging and exciting, fueling his passion for staying up-to-date with advancements.

ABOUT STEVENS ACADEMY

Within Stevens Academy, our priority is to provide prompt, knowledgeable, and friendly assistance, ensuring you feel confident reaching out to us. We want all our HVAC contractor customers to have the knowledge to properly select, install, commission, and service the latest technology, and we provide training to drive competence, efficiency, and long-term success.

YOUR TECH TEAM

MIKE DEARDEN

TECHNICAL SERVICE & TRAINING MANAGER

In early 2007, Mike Dearden was in college to become a middle-school English teacher, hoping to make the middle-school experience better for the next generation, but dabbled in HVAC to help support his small family. When his father and brother established a new HVAC company, he joined them full-time and dropped out of college. Despite the hardships of the 2008 recession, the company grew steadily and Mike's trade experience grew along with it. From Apprenticeship to Installation Tech, Lead Installer to Service Tech, and eventually running the early morning technical training classes for the company, which had grown to employ over 50 people. Mike was most proud to assist the technicians who finally passed their EPA or NATE tests after multiple attempts prior to his tutelage. Though the company was growing, it was not large enough to sustain a full-time training program. When the opportunity arose to become a full-time educator with Stevens Equipment Supply, Mike jumped at the opportunity. He now loves to teach and support new technicians as they begin their journey as tradesmen, as well as experienced technicians as they learn and adapt to the modern expectations of the HVAC trade.

YOUR TECH TEAM

TONY CROWLEY

TECHNICAL SERVICE & TRAINING MANAGER

Tony has transitioned from his role as Branch Manager to join the Tech Support team. With more than 36 years of experience in the HVAC industry, his journey began at his grandfather's shop in Michigan. Although he initially pursued a business degree at Central Michigan University, Tony quickly discovered a passion for hands-on work. He progressed from install helper to lead installer and service technician, building a solid foundation of technical expertise. In 2000, Tony moved to Green Bay, where he took on a variety of roles at SES, including installer, service tech, trainer, service manager, and eventually branch manager. He finds the HVAC industry's constant evolution both challenging and exciting, fueling his passion for staying up-to-date with advancements.
